

WHAT DO I DO NOW?

Take some time this week to read and reread **Psalm 139**.
Work hard to commit the entire Psalm to memory.

What about the presentation today struck you as amazing?

How has this changed your view of the human body?

How do you think of your own body?
How would you rate your self-image?

Do you truly know and believe that God has hand-crafted you?
He labored over you. He knows all of your days. He knows your every thought and the hairs on your head. He sees each tear that falls and even watches every sparrow.

How are you going to be different because of this study?

As usual for our studies, we have prepared a resource kit for you, your family and your small group.

Instead of recreating great tools and stunning images, we have listed many of our favorite

DVDs, websites and books on the subject of God's creation and design. We hope they inspire, educate and motivate extended study of God's Word.

Pick one up in the foyer today or print one from our website under Latest Sermons, series resources. Also in our foyer, you can browse many of the DVDs and books listed there. But please don't take them home. We need them!

HUMAN BODY

OUR
MAGNIFICENT
GOD

OCTOBER 30, 2011

MY SOUL KNOWS WELL

PSALM 139

As we conclude our series on Our Magnificent God, we again invite you to sit back and marvel. Our awe is our goal. God's glory is so high, it is so beautiful, it is so meaningful, that there is no other response we can muster but simply awe and worship. God is gloriously good.

Today we will look at the marvel of the human body. The specific topics we discussed include the following:

The stunning growth of a baby in the womb

The cell and Darwin's misunderstanding

The amazing tail of a single-cell bacteria

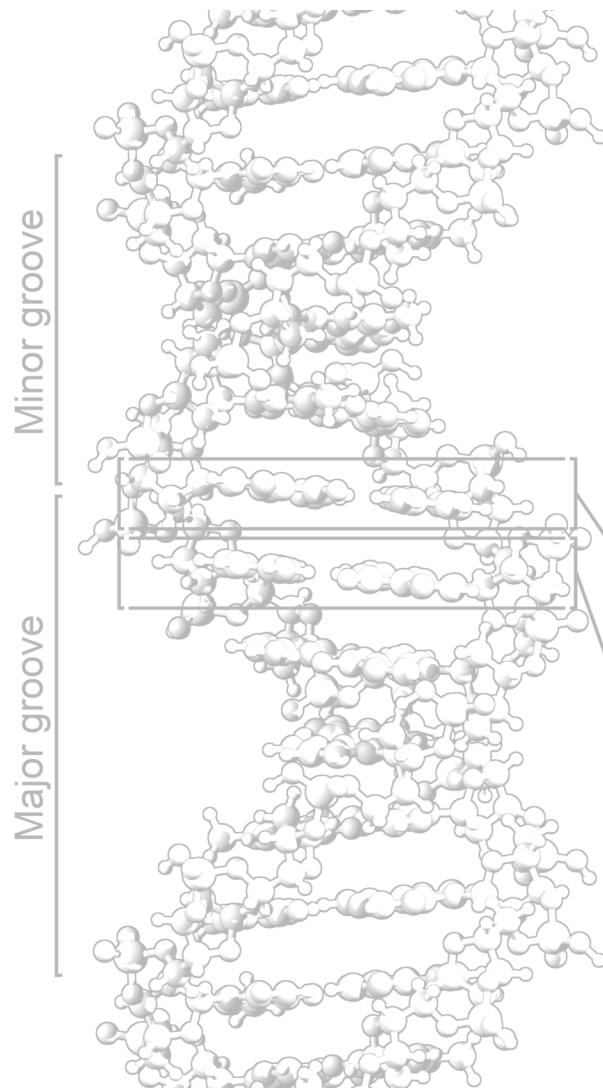

The blood-clotting cascade

The incredible human eye

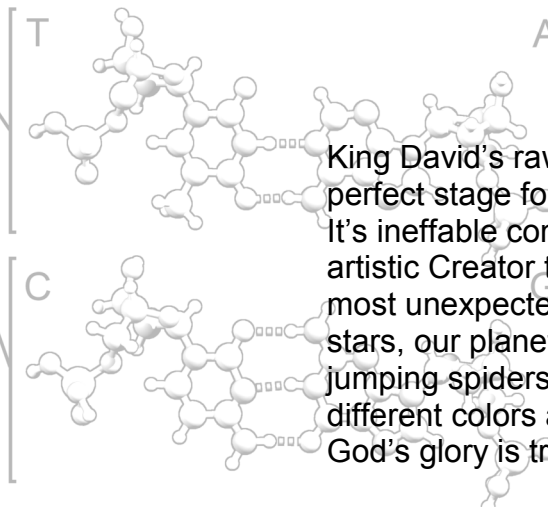

DNA: The most abundant source of information code in the universe.

Laminin: The critical structural protein

King David's raw and revealing song in **Psalm 139** sets the perfect stage for a Biblical understanding of the human body. It's ineffable complexity and design shout to a wondrously artistic Creator that revels in showing Himself to us in the most unexpected places. From massive galaxies, giant stars, our planetary neighbors and moon, the light spectrum, jumping spiders and giraffes, all the way to why our eyes are different colors and what happens when we cut our finger—God's glory is truly revealed. Let us stand in awe of Him.

For by JESUS CHRIST all things were created, both in the heavens and on earth...all things have been created through Him and for Him. He is before all things, and in Him all things hold together. **Colossians 1:16-17**
